

# Assessment

## *Review Transcript*

You should now be ready to utilize TWEN's assessment tools:

- turning in assignments for review and grading by your professor;
- completing diagnostic quizzes; and
- completing document quizzes.

This Assessment Unit is one that you may want to revisit during your studies, especially if you have graded assignments or quizzes due in a class.

To practice these functions, use the right arrow at the bottom of your screen to access the Assessment Unit simulation.
