

## Communication

### *Introduction Transcript*

Now that you know how to access your class and course materials, let's talk about how to communicate with TWEN. TWEN is a valuable communication tool for classroom activities, as well as for study groups and extracurricular teams. In this unit, you will learn how to communicate with your classmates and professor in a discussion forum, as both a contributor and as an author. Also, you will learn to form sub-groups within your class, which can be used to easily communicate with select classmates, study teams, and other groups.
