

Communication

Review Transcript

You should now be ready to utilize two of TWEN's communication tools:

1. the discussion forum, and
2. the sub-group email function.

In the discussion forum you may reply to posts by others, as well as author your own posts for your colleagues' input. Your sub-group email list will allow for quick, easy communication with sub-sets of your classmates and professors. Review this lesson if necessary.

To practice these skills, use the right arrow at the bottom of your screen to access the Communication Unit simulation.
